

We hired Mark DeVore and Pacific Northwest Enterprise Contractors to rebuild our house after a garage fire Oct. 09' caused sever smoke and water damage. Mark, Barry, Larry, and the rest of the crew have spent the winter patiently working with our insurance, inspectors and rebuilding through inclement weather. He has been a consistent advocate for our family.

We appreciate the quality of their craftsmanship and willingness to go the extra mile. They treat a project as though it is for them selves. Our home is in better condition following their work, then when we bought it new 10 years ago. We highly recommend them to our family and friends, and would hire them again for any project.

Sincerely,

Roy and Carol Moline
